Burdock (3596) got white 78, tattoo 78-W (upper right), **weighed 55lbs**, and got collar 32030.

Blaze (3597) got white 79, tattoo W-79 (upper right), **weighed 30lbs** and got collar 32031. (he slipped collar while in den + the collar was not working properly – I need either put anew battery in it /or send it back to lotek and checked)

Feisty (3598) got white 99, tattoo 99-W (upper right), **and weighed 28lbs**.

Whirlwind (3595) got white ear tags 98(r) & 82 (l) and the tags had pink and blue backs, tattoo 82-W (upper right), and **weighed 21lbs**.
